

CRUISE COMPASS

Majesty of the Seas®

DAY 3 Wednesday, August 31, 2016
Today we are in Nassau, Bahamas.

RELAX AND UNWIND IN NASSAU, BAHAMAS

For a place now known for its warm smiles and balmy breezes, Nassau hasn't always been so easygoing. During its fascinating yet tumultuous past, this Caribbean haven sheltered religious dissenters, Spanish invaders, freed slaves, English Loyalists and rum smugglers. Even the most infamous pirates of the 17th century found refuge in its hidden harbors. Now a part of the British Commonwealth, Nassau is a far cry from its days as an outlaw republic. Visitors come from all over the world to enjoy its translucent waters, colonial charm, spirited nightlife and savory cuisine. But above all, people are drawn to the laid-back Bahamian way of life.

Gangway Location: Deck 1

Tonights' Dinner Dress Suggestion Casual

SeaPass Card & A Picture ID

Please remember to have your SeaPass card and Government issued picture identification in hand when leaving or returning to the ship. Guests will not be allowed on or off the ship without it.

Safety Warning

Serious accidents and fatalities have occurred when guests have rented or taken independent tours involving mopeds, scooters, or wave runners (jets skis) "Because our guests' safety is our first priority, we recommend that guests only use licensed operators for personal watercraft use". Except on our private destination at CocoCay, where our trained and professional aquatics staff offer organized jet ski tours; Royal Caribbean strongly recommends that guests do not participate in such activities while ashore.

Guest Conduct Policy

Royal Caribbean has a Guest Conduct Policy regarding safety, security, guest conduct, parental and guardian responsibility, alcohol, smoking, prohibited items, health and environment, and age policies. There are consequences for violating the Guest Conduct Policy. The Guest Conduct Policy is available for review in the Cruise Services Directory located in your stateroom.

Airport Transfers

Enjoy the onboard convenience of purchasing your airport transfer from Port Canaveral to Orlando International Airport (MCO). Transfer costs \$37.50 per person and can be purchased at Guest Services, Deck 4. Deadline for purchasing is one day before the end of the cruise, by noon.

For exploring on your own, they're on Deck 5, forward elevator lobby. Just remember that there's a \$25 replacement fee for all unreturned towels, so please don't leave any behind! We want to keep the beaches and other destinations our guests visit as clean as when we first arrive.

Personal Flotation Devices

For the safety and well being of children, children's swimming pool personal flotation devices are available free of charge at the pool deck areas. Personal Flotation Devices (PFDs) are for use onboard the Majesty of the Seas and cannot be taken off the ship.

Helpful Health Information

Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses - such as a Norovirus that can be transferred easily through person-to-person contact - is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Noroviruses include an upset stomach, vomiting and diarrhea. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, please visit the ship's medical facility for a consultation and treatment if necessary.

Tomorrow is Day 4.

We will be in At Sea.

NOTICES

Safety and Security- For Safety and well-being of all persons onboard, some members of our Security Team will be wearing Body Camera as a part of their uniforms.

Smoking Policy - We have revised our onboard smoking policy, effective for all sailings departing on or after January 1, 2014. Under this new policy, all indoor public spaces will be smoke free, with the exception of the Casino. In the Casino, there will be designated smoking and non-smoking areas. Additionally, smoking will not be permitted in the staterooms or on stateroom balconies. Outdoor smoking areas will be designated on the starboard side.

United States Public Health Regulation Information - Animal foods such as beef, eggs, lamb, milk, pork, poultry or seafood that are raw or under-cooked significantly increase the risk of food-borne illness to vulnerable and immunodeficient guests.

Your Safety is Important to Us - We feel it is important to make our guests aware that the U.S. Embassy recently published a safety warning for the Bahamas due to an increase in crime against tourists, mostly non-violent crimes such as robbery of personal items. Visitors to the Bahamas need to be mindful of their personal safety. We recommend guests not venture too far from tourist areas, or consider participating in an organized tour. Also, to lower your risk of being a victim of petty theft or other non-violent crimes, please consider leaving valuables and irreplaceable items in your stateroom. We suggest you avoid wearing obviously expensive jewelry, carry only the cash or credit cards that you will need on each outing and keep your belongings secure and out of sight. This common sense approach and heightened level of awareness will help you enjoy your visit. Most importantly, if you happen to be confronted by a criminal, just remember that money and valuables can be replaced.

Health Advisory - CDC has issued a travel alert (Level 2-Practice Enhanced Precautions) regarding Zika virus transmission for people traveling throughout the Caribbean, Central / South America, Mexico, Oceania / So. Pacific Islands, Southeast Asia and Cape Verde, Africa. CDC also identified two areas in Miami (Wynwood, and a section of South Miami Beach) where Zika is being spread by mosquitoes. Pregnant women should not travel to those areas. Zika virus is spread primarily through the bite of an infected mosquito, which bites in the day and night, and lives both indoors and outdoors. Other modes of spread, including sexual transmission, have been reported. As additional areas of concern may be identified by CDC in the future, guests are encouraged to check the CDC website for the latest information at <http://www.cdc.gov/zika/intheus/florida-update.html>. Only 20% of people infected with Zika virus show symptoms which most commonly include fever, headache, skin rash, joint pain and conjunctivitis (red eyes). The illness is usually mild with symptoms lasting from 2-7 days. Although serious complications and deaths are uncommon, recent increases in birth defects and neurological syndromes are being reported in areas where Zika virus outbreaks have occurred. The CDC travel health advisory particularly impacts women who are pregnant (in any trimester) and women who are trying to become pregnant. Travelers can protect themselves by preventing mosquito bites and taking precautions including using insect repellents, wearing clothing which covers exposed skin and adopting safe sex practices. Pregnant women in any trimester should consider postponing travel to areas where Zika virus transmission is ongoing. Pregnant women who must travel to one of these areas should talk to their doctor or other healthcare provider first and strictly follow steps to avoid mosquito bites during the trip. Women trying to become pregnant who are thinking about becoming pregnant should consult with their healthcare provider before traveling to these areas and strictly follow steps to prevent mosquito bites during the trip. Mosquito repellent is available in the ship's gift shop or medical facility.
