Self Carry Departure

All guests wishing to expedite their departure in Port Canaveral, we are pleased to offer you a Self Carry Departure. Guests requiring wheelchair assistance, please do not choose this option.

NOTICES

Safety and Security- For Safety and well-being of all persons onboard, some members of our Security Team will be wearing Body Camera as a part of their uniforms.

Smoking Policy - We have revised our onboard smoking policy, effective for all sailings departing on or after January 1, 2014. Under this new policy, all indoor public spaces will be smoke free, with the exception of the Casino. In the Casino, there will be designated smoking and non-smoking areas. Additionally, smoking will not be permitted in the staterooms or on stateroom balconies. Outdoor smoking areas will be designated on the starboard side.

United States Public Health Regulation Information - Animal foods such as beef, eggs, lamb, milk, pork, poultry or seafood that are raw or under-cooked significantly increase the risk of food-borne illness to vulnerable and immunodeficient guests.

Your Safety is Important to Us - We feel it is important to make our guests aware that the U.S. Embassy recently published a safety warning for the Bahamas due to an increase in crime against tourists, mostly non-violent crimes such as robbery of personal items. Visitors to the Bahamas need to be mindful of their personal safety. We recommend guests not venture too far from tourist areas, or consider participating in an organized tour. Also, to lower your risk of being a victim of petty theft or other non-violent crimes, please consider leaving valuables and irreplaceable items in your stateroom. We suggest you avoid wearing obviously expensive jewelry, carry only the cash or credit cards that you will need on each outing and keep your belongings secure and out of sight. This common sense approach and heightened level of awareness will help you enjoy your visit. Most importantly, if you happen to be confronted by a criminal, just remember that money and valuables can be replaced.

Health Advisory: - CDC has issued a travel alert (Level 2-Practice Enhanced Precautions) regarding Zika virus transmission for people traveling throughout the Caribbean, Central / South America, Mexico, Oceania / So. Pacific Islands, Southeast Asia and Cape Verde, Africa. CDC also identified two areas in Miami (Wynwood, and a section of South Miami Beach) where Zika is being spread by mosquitoes. Pregnant women should not travel to those areas. Zika virus is spread primarily through the bite of an infected mosquito, which bites in the day and night, and lives both indoors and outdoors. Other modes of spread, including sexual transmission, have been reported. As additional areas of concern may be identified by CDC in the future, guests are encouraged to check the CDC website for the latest information at <http://www.cdc.gov/zika/intheus/florida-update.html>. Only 20% of people infected with Zika virus show symptoms which most commonly include fever, headache, skin rash, joint pain and conjunctivitis (red eyes). The illness is usually mild with symptoms lasting from 2-7 days. Although serious complications and deaths are uncommon, recent increases in birth defects and neurological syndromes are being reported in areas where Zika virus outbreaks have occurred. The CDC travel health advisory particularly impacts women who are pregnant (in any trimester) and women who are trying to become pregnant. Travelers can protect themselves by preventing mosquito bites and taking precautions including using insect repellents, wearing clothing which covers exposed skin and adopting safe sex practices. Pregnant women in any trimester should consider postponing travel to areas where Zika virus transmission is ongoing. Pregnant women who must travel to one of these areas should talk to their doctor or other healthcare provider first and strictly follow steps to avoid mosquito bites during the trip. Women trying to become pregnant who are thinking about becoming pregnant should consult with their healthcare provider before traveling to these areas and strictly follow steps to prevent mosquito bites during the trip. Mosquito repellent is available in the ship's gift shop or medical facility.
